# B-HIVE MOBILE

## WORK YOUR WAY

You don't have to be tied to your desk phone to be connected. You can take it with you wherever you go with the b-hive mobile app. Now, you can work anywhere, anytime... or not. With b-hive mobile, you have the freedom to work your way.

### NEVER MISS IMPORTANT CALLS

Stay on top of your important calls and messages even when you're away from your desk or out of the office.

### DON'T SACRIFICE FUNCTIONALITY

Call, text, transfer, record, conference, and more from your mobile device as if you were using your desk phone.

### LOOK LIKE YOUR "IN THE OFFICE"

Make and take calls from any mobile device using your b-hive number, so it looks like you're in even if you're not.

### TRANSFER CALLS FROM DESKTOP TO MOBILE

Transfer critical calls while in they're in progress from your desk phone to your mobile device, and vice versa.

### SEAMLESSLY SWITCH FROM WI-FI TO MOBILE

Move calls seamlessly from mobile data to Wi-Fi connections, depending on availability and quality.

### SEPARATE BUSINESS & PERSONAL CALLING

Business calls, texts and contacts stay within the b-hive system, not on your personal mobile devices.

# MUST-HAVE FEATURES

## CONTACTS

Store all your contacts in one easy to manage place. Search for a specific contact or scroll through the list. Click to call, text, or video call.

## CALL RECORDING

Record calls at any time. View and listen to recordings on the call history tab.

## CALL CONFERENCING

Conduct conference calls wherever you are with three-way conference calling.

## CALL FORWARDING

Direct all inbound calls to another number.

## CALL TRANSFERRING

Warm/blind transfer calls to any number or work extension.

## TEXT MESSAGING

Send individual or group text messages from your work number.

## RINGTONES

Customize ringtones for inbound calls and text messages to differentiate business and personal communications on your mobile device.

## DO NOT DISTURB

Turn on or schedule Do Not Disturb so the app will not ring when it's after work hours or you're not available.

## VOICEMAIL

See all your voicemails in an organized view. Click to listen or read the transcription.

## CALL HISTORY

View a detailed history of all inbound and outbound calls – received or missed.

## CALL REPORTING

View talk times and call statistics for specific time periods with usage metrics.
