

Quantum.

VS-NVR SERIES

HIGH-PERFORMANCE,
COST-EFFECTIVE VIDEO
RECORDING SERVERS

DATASHEET

Quantum offers a broad portfolio of network video recording servers to meet the needs of any surveillance environment, from a few cameras to hundreds of cameras. Each product is designed with the latest hardware to achieve the best performance at the best price, and to maximize the useful life of the products.

The VS-NVR series is available in a variety of form factors, including mini-tower, 1U and 2U rack mount, and an ultra-dense 4U 60-bay rack mount server for recording and retaining footage from hundreds of cameras for months or years.

Every product is backed by Quantum's global support organization, providing installation and support 24x7x365 to tens of thousands of customers around the world.

FEATURES AND BENEFITS

- **High Performance:** Designed with the latest hardware and operating systems to maximize the number of cameras each product can support.
- **Cost-Effective:** Each VS-NVR product was designed and specified to achieve the best performance at the lowest cost.
- **Easy to Deploy and Maintain:** VS-NVR series products are pre-certified and pre-installed with the operating system so you can connect it to your network and start to record in minutes.
- **Latest Generation Hardware:** Quantum VS-Series products use the latest generation hardware resulting in longest lifecycles for your projects.
