

Optimize spend, manage risk, and increase efficiency with Flexera One

Flexera One enables more recurring value from every customer you manage

One platform for growth in the age of AI

The explosion of AI means your customers are losing visibility and control over cloud spend. Ensuring they're getting value from AI, cloud and IT assets across their estate is a massive challenge. Flexera One is the one platform partners trust to meet those needs.

With Flexera One it's easy to build differentiated services

Risk Management & Planning

- Regulatory compliance
- Enterprise planning
- Lifecycle management

Asset Management

- Spend optimization
- Vendor rationalization
- Contractual compliance

Cloud & SaaS Optimization

- AI & digital transformation
- Rate optimization
- Usage optimization

ITAM

- Optimize for technology spend efficiency.
- Negotiate with vendors from a position of strength.
- Reduce risk from audits or software compliance.

FinOps

- Improve visibility & allocation of cloud spend.
- Improve efficiency & value from cloud spend.
- Operate AI & cloud at scale.

Visibility

- See across silos for key insights into the IT estate.
- Consolidate, normalize and contextualize IT data for strategic use.
- Reduce vulnerability risk.

Why choose Flexera?

Your customers have questions that span the entire technology estate.

Their organizations have business initiatives that span the entire technology estate.

Only Flexera has what you need to grow your business across their entire estate.
